ସୁଶାସନମାତ୍ରକୁ ଶୁଣି ଯଦେ ଏହା ଘନକୁ ଦିନ ଧୂର ପାଶା

With the body in the seven-fold posture of concentration:

ଅଁଶ୍ଵରୀ ମୁଣ୍ଡଳେ ନାହିଁ କିମ୍ବା ଶ୍ଵରୀ ମୁଣ୍ଡଳେ ନାହିଁ ।

om swa bha wa shuddhah sarwa dharmah swa bha wa shuddho ham

ଜୀବକ୍ଷୁଃଶତକ୍ଷୁଃଏକ୍ଷୁଃଏକ୍ଷୁନ୍ଦେହୀ

om yo ga shuddhah sarwa dharmah yo ga shuddho ham

*Om yogasuddhaḥ sarvadharmāḥ yogasuddho 'ham*

sum gyi jang pe zung dzin gyi dü pe chö tham che tong pa nyi du gyur

By purifying with these three mantras, all phenomena subsumed within grasped and grasping become emptiness.

ད୍ୱାରା ଦେଖିଲୁ ଏହା କିମ୍ବା ଏହାର ପରିମା କିମ୍ବା ଏହାର ପରିମା କିମ୍ବା

dei ngang le hung hung zhe jö pe dor jei sa zhi ra wa gur la dre de dra wa dei chi röl tu ye she kyi me bar we sung we khor lo chen pö

From that state, by expressing *Hum hum*, the vajra foundation, enclosure, tent, canopy, and arrow net arise.

Around the outside of that is the great protection circle of blazing primordial wisdom fire.

ମୁଖ୍ୟାଙ୍ଗାଙ୍କରେ ପରିପୂର୍ଣ୍ଣ ବନ୍ଦରୁ ହେଲାଯାଏ ଏହାରେ ପରିପୂର୍ଣ୍ଣ ବନ୍ଦରୁ ହେଲାଯାଏ

ü su eh le chö kyi jung ne tsa wa tra wa thur du zug pa deng ka che wa yar ten pa chi ngo nang mar wa yang shing gya che we

In the center the syllable *E* transforms into a dharmodayā with its pointed root thrust downward. It expands towards the top like the hood of a cobra. The outside is blue, the inside red, and it is vast and immense.

ବୁଦ୍ଧାଙ୍ଗାନ୍ତିକ ପାଦମଣି ପାଦମଣି ପାଦମଣି ପାଦମଣି

ü su pam le na tshog pema dang ah le da wa nya gang wa ram le nyi me den la bam chen nöl we teng du rang gi sem nyi bam yig  
On the center the syllable *Pam* transforms into a multicolored lotus. The syllable *A* transforms into a full moon. The syllable *Ram* transforms into a sun seat, upon which are interlaced human corpses. Above that is the nature of my mind as the red syllable *Vam*, blazing with light.

**mar po ö bar wa le dor je dri gug te war bam gyi tshen pa le ö trö phag pa chö sem chen tham che kyi dig drib jang**  
This transforms into a drigung knife with a vajra handle, adorned in center with the syllable *Vam*. Light emanates from this, making offerings to the noble ones and purifying the negative deeds and obscurations of all sentient beings, establishing them in the state of Vajrayoginī.

କୁଳାଙ୍ଗାରୁଷିତିରେ ପାଇଲାମାନଙ୍କରୁ କୁଳାଙ୍ଗାରୁଷିତିରେ ପାଇଲାମାନଙ୍କରୁ

**jor me go phang la kö tshur dü yong su gyur pa le nam kha la dar mar po char wa tar rang nyi dor je**  
As this light gathers back, it completely transforms. Like red silk raised into the sky, I myself become Vajrayogini.

**ku dog mar po nyi ma bum gyi zi ji chen tsa zhal chen sum tro chag dre pa che wa chung ze tsig pa**  
My body is red and shines with the brilliance of a hundred thousand suns. My main face  
has three eyes, an expression of mixed wrath and passion, and fangs slightly bared.

**na tag ye su phag zhal nag po ngur dra drog pa thö pa kam po nge ur gyen chen tra dröl wa thö pa ngab chu tsa chig gi do shal dang**  
Above my right ear is the black head of a sow, making a snorting roar. I have a crown of five dry skulls.

**rü pe chag gya nga chang wa    chag ye dri gug char zhing yön thö trag thug kar nam pa    dru mor kha twam ga dreng pa**  
With my right hand I brandish a curved drigung knife, and with my left I hold a skullcup  
of blood to my heart. With the inner curve of my left arm I hold up a khatvāṅga.

I am naked, joyfully partaking in blood, and [my own] blood drips forth. I possess the youth of a sixteen  
year old, and my breasts are aroused. With my right leg drawn in and my left leg extended

I stand dancing throughout the expanse of the three realms. I dwell in the center of a self-emanated mass of blazing fire.

Summoning the Wisdom Deities and Receiving Blessings

ॐ इति द्विष्टशृणुष्वामी

Within the secret place of Yeginī there is a red dharmodayā, adorned in the center with the syllable *Hrih*.

Light emanates from this. The victorious ones of the ten directions, together with their retinues,

ॐ इति द्विष्टशृणुष्वामी

dor je nal jor me nam par dün gyi nam khar chen drang badzra sa ma dzah de dag gi ku le nal jor me ku pag tu me pa trö pa  
are invited to assemble in the space before me in the form of Vajrayogini. *Vajra samājāḥ*.

Fathomless enlightened bodies of Yeginī emanate from their enlightened bodies.

ॐ इति द्विष्टशृणुष्वामी

rang gi chi wor thim pe lü la de wa dang nü pa kye sung le ah li ka li mar po trö rang gi drin par thim pe ngag la thu dang nü pa kye

These dissolve into my crown, generating bliss and power in my body. Red vowels and consonants emanate  
from their enlightened speech and dissolve into my throat, generating force and power in my speech.

ॐ इति द्विष्टशृणुष्वामी

thug le jang chub sem kyi chu gyün bab rang gi nyung gar thim pe de tong gi ye she gyü la kye

A stream of bodhicitta flows down from their enlightened mind and dissolves into my  
heart, generating the primordial wisdom of bliss and emptiness in my mind stream.

ॐ इति द्विष्टशृणुष्वामी

thar nal jor ma de nyi rang la thim pe nyi su me par gyur

Finally, Yeginī herself dissolves into me, and we become non-dual.  
Cultivate the generation stage visualization as much as possible. When weary of that:

In short, the appearing aspect of my mind is the illusion-like form of the deity, and the emptiness aspect is the luminous dharmakāya nature. Practice pure recollection with conviction. When weary of that:

## Mantra Recitation

At the secret place or navel of myself, luminously appearing as Yogiñī, is a red dharmodayā like a wheel of fire. On the center of that is a red lotus. On the middle of the lotus is a sun.

ତୁମାନୁଷ୍ଠିଣାଦମର୍ବିମସର୍ବତ୍ତାଶପ୍ରିଦଶିନାଶପ୍ରିକ୍ରିମା ଶବ୍ଦାନୁଷ୍ଠାନିହିନ୍ଦିକେଶଦର୍ଶନାଶପ୍ରିକ୍ରିମା

ü su bam yig mar pö thar ngag treng gi yön du kor wa ngag de pe tshe den sa wön dang che pa min gül war

On the center of the sun is the red syllable *Vam*. Around the edge of that, the mantra garland circles in a counterclockwise manner. When reciting the mantra, the seat and seed syllable are unmoving,

ଶବ୍ଦାନୁଷ୍ଠାନିହିନ୍ଦିକେଶଦର୍ଶନାଶପ୍ରିକ୍ରିମା

ngag treng yön kor du drag la nyur war khor war gyur

while the mantra garland circles counterclockwise fiercely, faster and faster.

At the end of the session, light emanates from the seed syllable *Vam*. The entire vessel and its contents melt into light and dissolve into me. My body melts into light from the top down and the bottom up and dissolves into the syllable *Vam*.

The body of the *Vām* syllable, the head, the crescent moon, and the bindu dissolve into the nāda. The nāda then transforms into the nature of luminous emptiness. Evenly rest in that state for as long as possible.

lar yang rang nyi gyu ma ta wü nal jor ma zhal chig chag nyi pe nam par gyur

When emerging: Again, I arise in the illusion-like form of Yognī with one face and two arms. From this state of visualization, enter the path of activities.

Sangngag Rigdzin Chökyi Dragpa Trinle Namgyal, who has vigorously trained in this path from the Kyura family descendants of upper central Drigung and realized the dharmakāya luminosity of death, perfectly composed this text with pure three-fold scrutiny in the earth element rabbit year in the ninth month when the dākīnīs gather on the waxing tenth day in the All-Illuminating Lattice-like Treasure House of Secret Mantra of the Tiger Peak Castle Mountain. Through this, may the precious teachings of the victorious ones, together with the deities, dwell for a very long time as a feast of benefit and happiness for all the nine types of beings! *Śubhamstu sarvajagatam*

This text, which has been used for centuries as the main generation stage sādhana for those practicing the Drigung Kagyü tradition of the Six Dharmas of Nāropa, was extracted under the guidance of Garchen Rinpoche and Traga Rinpoche from *The Exquisite Oral Instructions of Lord Nāropa: A Clear Explanation for Practicing the Instructions of the Profound Path of the Six Dharmas of Nāropa* by Rigdzin Chökyi Dragpa. The translation was completed on the twenty-fifth day of the ninth lunar month in the 2005th year of the Common Era.

May the primordial wisdom Vārāhī blaze within all beings!
